

--

The second semester will jump right into a poster project.

Your assignment for the winter break is to watch at least 2 of the following Jim Jarmusch films:

1. Down By Law
2. Dead Man
3. Night on Earth

A major parameter for this project will be that you can't use 'real type' (Helvetica, Baskerville, etc.) and will have to construct type out of some material.

Keeping that in mind, develop 100 sketches for potential poster designs of either of the two films you watch. Each sketch has to be on an 8 1/2"x11" sheet of paper. All 100 sketches have to be bound together. This means it can be fancy book binding or 3-hole punched and put into a binder. Just keep them all together in a nice and tidy way.

Sketches can be loose (sharpie marker or pencil) but they should be big. No thumbnail drawings.
